

Instructions

1. Use the large and small square pegboards for your project. For the large piece, assemble TWO large pegboards as shown. Cut out the individual halves of the chart and tape them together so that you can see the whole design at once. If you're using clear pegboards, slide the actual-size pattern underneath them. Now place all the beads for your project.

2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center.

3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboards and ironing paper are reusable.
